Sandusky County, Ohio – Index to Marriage Records 1820- 1894

The information in this book was compiled by Kin Hunter member Kenneth R. Smith. Ken spent several years poring over microfilmed and original records, newspapers and some church records in order to index the information as accurately as he could. Dennis Smith entered most of the data from Ken's handwritten cards into the computer. Gayle Mehling, Dave Golden, and Tom Fishbaugh helped proofread or prepare the work for publication.

The date of the record is usually the date of the actual marriage, but it may also be the date of the application of the marriage, which is sometimes filed in a separate volume. Some records did not have any date at all, but a general date could be ascertained by checking the dates that a volume covered. As in any work of this magnitude, there is the possibility of an occasional error due to handwriting, transcriptions, and inputting, although every effort was made to minimize them. On the next two pages are examples of the original records.

A few records have LANG in the volume field. In this case, the records of Rev. Henry Lang of St. John's Lutheran Church, Fremont, OH provided the information. These records are available at the Hayes Presidential Center.

Arrangement:
1. Groom list- The front of the book lists the marriages in alphabetical order by groom.
2. Bride list – The second half of the book lists the marriages in alphabetical order by bride.

Each entry gives the groom and bride's names, the date of the record and the volume and page of the marriage record to consult for full information. Be aware that Ohio marriage records prior to 1899 do **not** give extensive information, such as parent's names, occupations, birthplaces, etc.

To view a copy of the full record, researchers may see the original at the Probate Court, Sandusky County Courthouse, Fremont, Ohio. These records have all been microfilmed and are also available at the Hayes Presidential Center Library, Spiegel Grove, Fremont, OH 43420. They are also available via interlibrary loan at L.D.S. (Mormon) Church Family History Centers.

The microfilm records used were as follows:

Roll 2025: Marriage Records, Index Vol. 9, 1820-1867; Returns, Vol. A-B, 1820-1843
